

A Modular Pump That Will Grow With You

MP SERIES PUMPS

Accent manure pumps are manufactured with stainless steel to keep them corrosion free, provide greater wear resistance and give them a longer life cycle. Engineered components including cast volute cases and finely machined rotating parts provide superior flow characteristics and improved power efficiencies. Accent pumps will lower your operating costs and last longer.

SUPERIOR STAINLESS STEEL CONSTRUCTION

Farm operators understand the benefits of quality material because their equipment has to keep working, often in harsh or abrasive conditions. At Accent we understand those conditions and manufacture our pumps to exacting standards using only the highest quality steel material available - 304 and hardened 440C stainless.

SIMPLE. VERSATILE. DURABLE.

Accent pumps are designed for **Simplicity** so you get trouble free operation. They incorporate upgradeable components and engineering **Versatility** that ensures your pump won't become obsolete. When you buy an Accent pump you get high quality interchangeable components like oil bath drive shafts, silicon carbide mechanical seals, extra heavy castings, important features that ensure **Durability** and long equipment life.
